

## Ordinance No. 4555

An Ordinance of the City Council of the City of Ellensburg, Washington relating to Utility rates and fees in the Electric, Natural Gas, Water, and Sewer Utilities: amending sections 9.30.020, 9.30.030, 9.30.100, 9.30.200, 9.30.300, 9.30.400, 9.91.100, 9.91.200, 9.91.300, 9.91.400, 9.92.100, 9.92.200 and 9.92.300 of the Ellensburg Municipal Code; and, adding a Non-Profit customer class to each of the City's utilities rate structures for agencies meeting specific eligibility criteria.

WHEREAS, the Electric, Natural Gas, Water, and Sewer Utilities routinely review revenue demand of the respective utilities, and

WHEREAS, each of the subject utilities have existing bond debt with bond coverage requirements, and extensive capital facility programs to be funded through the issuance of additional debt, and

WHEREAS, the City of Ellensburg is a non-charter code city of the State of Washington, organized under Title 35A, the Optional Municipal Code, and pursuant to its legislative powers, has authority to operate various utility systems including but not limited to electric, gas, sewer and water utilities, and

WHEREAS, this ordinance has been reviewed by the Utility Advisory Committee and is recommended for City Council adoption.

NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF ELLENSBURG:

**Section 1.** Section 9.30.020, as lasted amended by Ordinance No. 4503, is hereby amended to read as follows:

### **9.30.020 Definitions**

“Income” means all monies received by the claimant from any source. It includes, but is not limited to: wages, Railroad Retirement, Social Security benefits, investment income in the form of dividends from stock, interest on savings accounts and bonds, capital gains, gifts and inheritances, net rental income from real estate, disability payments, retirement pay and annuities. Reimbursement for losses shall not be considered as income.

“Electric Demand” means the maximum KW delivered during a thirty-minute period in which the consumption of energy is the greatest during the month.

“Domestic Strength Wastewater” means wastewater having a BOD of two hundred mg/l and suspended solids of two hundred fifty mg/l.

“B.O.D. (biochemical oxygen demand)” means the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five days at twenty degrees centigrade, expressed in parts per million by weight.

“Purchased Gas Cost Adjustment” means the average cost of gas per ccf paid by the city (including current city and state taxes per ccf) the month prior to the billing month.

“Low Income Senior Citizen” means persons who are 65 years of age or older with a combined household income at or below 40% of the State median income.

“Low Income Disabled Citizen” means persons who qualify for special parking privileges under RCW 46.16.381(1)(a) through (f) or qualify as a blind person as defined in RCW 74.18.020, with a combined household income at or below 125% of federally established poverty level, as specified in RCW 70.164.020(4).

“Non-Profit Agency Serving the Disadvantaged” means agencies with a 501 (c) 3 tax exempt designation from the Internal Revenue Service (IRS) whose primary clients/customers qualify for the Low Income Senior Citizen Rate or the Low Income Disabled Citizen Rate.

“Debt Service Coverage” or “DSC” means the result of a calculation dividing a utility’s margin (profit) for the year by the utility’s annual debt payment.

“Power Factor” or “PF” means the ratio of the real power to the apparent power, and is a number between 0 and 1. Real power is the capacity of the circuit for performing work in a particular time. Apparent power is the product of the current and voltage of the circuit.

**Section 2. Section 9.30.030, as last amended by Ordinance No. 4503, is hereby amended to read as follows:**

**9.30.030 General**

- A. Utility Billings shall be made on a service month of approximately thirty days.
- B. It is intended that all utility rates be based on cost-of-service principles. Subsidies between rate schedules shall be avoided except for Low Income Senior Citizen, ~~and Low Income Disabled Senior Citizen,~~ and Non-Profit Agency serving the Disadvantaged rate schedules.
- C. Provision of utility service under any of the rate schedules listed in this section shall be subject to the general provisions of city ordinances.

D. Nonpayment of any utility service charges shall constitute a nonpayment of a utility bill and the city may in such cases refuse to initiate other city utilities to the premises until such delinquent account is paid in full.

E. Adopted rate schedules are set forth in Chapter 9.91 ECC.

**Section 3. Section 9.30.100, as last amended by Ordinance No. 4503, is hereby amended to read as follows:**

**9.30.100 Electric Rates**

A. Separate electric rates shall be established for the following rate classes: Residential, Low Income Senior Citizen/Low Income Disabled Citizen, General Service, General Service Demand, Non-Profit Agency Serving the Disadvantaged, Security Lighting, Municipal, and Large Customer/Contractual.

B. Whenever the eligibility criteria for qualifying for a demand rate changes, existing demand customers shall remain on their respective demand rates until such time as each account can be analyzed.

C. The Low Income Senior Citizen/Low Income Disabled Citizen and Non-Profit Agency Serving the Disadvantaged rates shall have Consumption Charges set at 90% of the Residential rate and General Service rate respectively. In addition, these two rate schedules shall not be charged a Customer Charge.

**Section 4. Section 9.30.200, as last amended by Ordinance No. 4503, is hereby amended to read as follows:**

**9.30.200 Gas Rates**

A. Separate gas rates shall be established for the following rate classes: Residential, Low Income Senior Citizen/Low Income Disabled Citizen, Commercial & Industrial, Non-Profit Agency Serving the Disadvantaged, City Vehicles, and Interruptible Industrial.

B. Due to volatility in retail gas consumption and the need to satisfy bond covenants associated with maintaining a minimum debt service coverage, anytime projected budget revenues and expenditures for the next year are calculated to produce a DSC of less than 1.2 an automatic adjustment to the consumption charge of all gas rate schedules shall be made on

October 1st of the current year to provide sufficient revenues to attain a DSC of 1.2 for the ensuing year.

C. The Low Income Senior Citizen/Low Income Disabled Citizen and Non-Profit Agency Serving the Disadvantaged rates shall have Consumption Charges set at 90% of the Residential rate and Commercial & Industrial rate respectively. In addition, these two rate schedules shall not be charged a Customer Charge.

**Section 5. Section 9.30.300, as last amended by Ordinance No. 4503, is hereby amended to read as follows:**

**9.30.300 Sewer Rates**

A. Separate sewer rates shall be established for the following rate classes: Residential Single-Family, Residential Multi-Family, Low Income Senior Citizen/Low Income Disabled Citizen, Commercial, Non-Profit Agency Serving the Disadvantaged, Industrial and General Service, Central Washington University, Multi-Family, Municipal, High Strength Commercial, and Large Customer/Contractual.

B. Customers in single-family or multi-unit structures shall have the privilege of receiving service under either the Residential Single-Family rate (S-11), the Residential Multiple-Family rate (S-12) or the Multi-Family rate (S-23). However, once the customer has selected a rate under which to receive service the customer's selection shall be in force and effect for a firm period of at least twelve months and shall not be applied to any service previously rendered.

C. Users of water for irrigation, cooling, or other special purposes, which does not enter any sanitary sewer or combined sewer and which is separately metered for such special purposes, shall be exempt from payment of sewer service charges for such special use.

D. The Low Income Senior Citizen/Low Income Disabled Citizen and Non-Profit Agency Serving the Disadvantaged rates shall have Customer Charge and Volume Charge set at 50% of the Residential Single Family rate and the Commercial, Industrial & General Service rate respectively.

**Section 6. Section 9.30.400, as last amended by Ordinance No. 4503, is hereby amended to read as follows:**

**9.30.400 Water Rates**

- A. Separate water rates shall be established for the following rate classes: Residential, Residential Multiple Housing, Low Income Senior Citizen/Low Income Disabled Citizen, Commercial & Industrial, Non-Profit Agency Serving the Disadvantaged, Private Fire Protection, Central Washington University, Meter Maintenance Service, Municipal and New Large Commercial/Industrial Contract.
- B. All service of water shall be metered unless specified otherwise under this chapter.
- C. Where the Residential service is also used for “seasonal sprinkling service”, the customer charge shall be on a twelve-month basis and shall apply even during periods of nonuse.
- D. The Low Income Senior Citizen/Low Income Disabled Citizen and Non-Profit Agency Serving the Disadvantaged rates shall have the first block of the Volume Charge set at 50% of the Residential rate and Commercial/Industrial rate respectively.

**Section 7. Section 9.91.100, as last amended by Ordinance No. 4503, is hereby amended to read as follows:**

**9.91.100  
Electric Utility Rate Schedules  
Effective Date: 1/1/0810**

**Residential E-100**

- A. Availability. This electricity service rate schedule is available within the service area of the City to single family dwellings and multiple family dwellings through a separate meter for each living unit. This rate schedule is not available for electric energy resale purposes, or where any part of the use is for purposes other than above stated.

B. Character of Service. Energy delivered under this schedule shall be 60 cycle AC at a nominal potential of 120, 120-208, or 120-240 volts single phase.

C. Rate. The rate shall be composed of a consumption charge plus a daily customer charge computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE: All usage at ~~\$0.0539~~ 0.0593 per KWH  
CUSTOMER CHARGE: ~~\$.3288~~ .3617 per day

### **Low Income Senior Citizen/Low Income Disabled Citizen E-130**

A. Availability. This rate is available for residential service to individuals who meet the definition of Low Income Senior Citizen or Low Income Disabled Citizen and, who don't reside in federally subsidized housing.

B. Character of Service. Energy delivered under this schedule shall be 60 cycle AC at a nominal potential of a 120, 120-208, or 120-240 volts single phase.

C. Rate. The rate shall be composed of a consumption charge plus a daily customer charge computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE: All usage at ~~\$0.0485~~ 0.0534 per KWH  
~~The consumption charge for this rate schedule is intended to be set at 90% of the residential service rate.~~  
CUSTOMER CHARGE: None

### **General Service Single Phase Demand E-200**

A. Availability. This electricity service rate is available within the service area of the City to all customers who do not qualify for service under the residential, low income elderly/disabled, municipal, security lighting or large customer/contractual rate schedules and whose electrical panel size is equal to or greater than 600 amps single phase @ 120-240 volts or equivalent panel size for other voltages.

B. Character of Service. Energy delivered under this schedule shall be 60 cycle AC, 120-240 volts (or other voltage) single phase.

C. Rate. The rate shall be composed of a consumption charge plus a monthly demand charge plus a daily customer charge computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE: All usage at ~~\$0.0400~~ 0.0440 per KWH  
DEMAND CHARGE: All demand at ~~\$3.76~~ 4.14 per KW  
CUSTOMER CHARGE: ~~\$1.3151~~ 1.4466 per day

D. Delivery Point. The above rates are based upon the supply of service to the entire premises through a single delivery and metering point and at one voltage and phase. Separate supply for the same customer at other voltage or phase or at other points of consumption will be separately metered and billed.

E. Adjustment for Demand. Demand charges will be adjusted to correct for average power factors lower than ninety-seven percent, by taking .97 of the demand determined and dividing this amount by the monthly average power factor.

### **General Service Three Phase Demand E-201**

A. Availability. This electricity service rate is available within the service area of the City to all customers who do not qualify for service under the residential, low income elderly/disabled, municipal, security lighting or large customer/contractual rate schedules and whose electrical panel size is equal to or greater than 400 amps three phase @ 120-208 volts or equivalent panel size for other voltages.

B. Character of Service. Energy delivered under this schedule shall be 60 cycle AC, 120-240 volts (or other voltage) three phase.

C. Rate. The rate shall be composed of a consumption charge plus a monthly demand charge plus a daily customer charge computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE: All usage at ~~\$0.0400~~ 0.440 per KWH  
DEMAND CHARGE: All demand at ~~\$3.76~~ 4.14 per KW  
CUSTOMER CHARGE: ~~\$2.9589~~ 3.2548 per day

D. Delivery Point. The above rates are based upon the supply of service to the entire premises through a single delivery and metering point and at one voltage and phase. Separate

supply for the same customer at other voltage or phase or at other points of consumption will be separately metered and billed.

E. Adjustment for Demand. Demand charges will be adjusted to correct for average power factors lower than ninety-seven percent, by taking .97 of the demand determined and dividing this amount by the monthly average power factor.

### **General Service Single Phase E-210**

A. Availability. This electricity service rate is available within the service area of the City to all customers who do not qualify for service under the residential, low income senior/disabled, municipal, security lighting or large customer/contractual rate schedules and whose electrical panel size is less than 600 amps @120-240 volts or equivalent panel size for other voltages.

B. Character of Service. Energy delivered under this schedule shall be 60 cycle AC, 120-240 volts (or other voltage) single phase.

C. Rate. The rate shall be composed of a consumption charge plus a daily customer charge computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE:	All usage at <del>\$0.0539</del> <u>0.0593</u> per KWH
CUSTOMER CHARGE:	<del>\$.3288</del> <u>.3617</u> per day

D. Delivery Point. The above rates are based upon the supply of service to the entire premises through a single delivery and metering point and at one voltage and phase. Separate supply for the same customer at other voltage or phase or at other points of consumption will be separately metered and billed.

### **General Service Three Phase E-211**

A. Availability. This electricity service rate is available within the service area of the City to all customers who do not qualify for service under the residential, low income senior/disabled, municipal, security lighting or large customer/contractual rate schedules and whose electrical

panel size is less than 400 amps three phase @ 120-208 volts or equivalent panel size for other voltages.

B. Character of Service. Energy delivered under this schedule shall be 60 cycle AC, 120-240 volts (or other voltage) three phase.

C. Rate. The rate shall be composed of a consumption charge plus a daily customer charge computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE: All usage at ~~\$0.0539~~ 0.0593 per KWH

CUSTOMER CHARGE: ~~\$.6575~~ .7233 per day

D. Delivery Point. The above rates are based upon the supply of service to the entire premises through a single delivery and metering point and at one voltage and phase. Separate supply for the same customer at other voltage or phase or at other points of consumption will be separately metered and billed.

### **Security Lighting E-300**

A. Availability. This electricity service rate schedule is available for existing security light customers within the service area of the City for photoelectric controlled dusk to dawn external lighting service primarily served by property owned by the customer. No new installations will be made for service under this schedule.

B. Character of Service. Service shall be unmetered, 60 cycle, 120-240 volt alternating current.

C. Rate.

Light only: \$.~~6148~~ .6763 per day

Light with Pole: \$.~~6710~~ .7381 per day

D. General Conditions.

1. The city reserves the right to eliminate service under this schedule or to reduce the wattage of the luminaire.

2. Normal lamp, control replacements and maintenance work shall be made by the city during regular business hours only.

3. It shall be the responsibility of the customer to notify the city of lamp failure. No credits or adjustment of charges will be made during time of such failures, unless the city shall be unable to repair the defects when requested.

4. The city reserves the right to restrict installations of lighting equipment to poles on which suitable space is available and to make such installations only where they will not interfere with any other equipment owned by the city or its customers.

**Municipal E-500**

A. Availability. This electricity service rate schedule is available for water pumping, sewage treatment and pumping, municipal buildings and other municipal purposes.

B. Character of Service. Energy delivered under this schedule shall be 60 cycle AC, 120-240 volts single phase or other voltage and polyphase service available.

C. Rate. The rate shall be composed of a consumption charge plus a daily customer charge computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE:	All usage at <del>\$0.0515</del> <u>0.0567</u> per KWH
CUSTOMER CHARGE:	Single Phase - <del>\$.3288</del> <u>.3617</u> per day
	Three Phase - <del>\$.6575</del> <u>.7233</u> per day

**Large Customer/Contractual E-600**

A. Availability. This electric rate is available to large electric customers within the limits of the service area of the City whose requirements exceed or are estimated to exceed 15,000 MWH (megawatt hours) per year. The City will provide firm electric supply under this schedule provided that:

1. Adequate electric supply exists in the City's distribution system;
2. Adequate capacity exists in the City's distribution system; and
3. The customer has executed a long term Large Customer Power Sales Agreement with the City for service under this schedule.

B. Character of Service. Energy delivered under this schedule shall be 60 cycle AC, 12,470 Volts, Three Phase.

C. Rate. The rates under this schedule will be covered by individual contract between the City and the Customer.

**Non-Profit Agency Serving the Disadvantaged E-700**

A. Availability. This electricity service rate is available within the service area of the City to all non-profit agencies serving the disadvantaged.

B. Character of Service. Energy delivered under this schedule shall be 60 cycle AC, 120-240 volts (or other voltage) single or three phase.

C. Rate. The rate shall be composed of a consumption charge computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE: All usage at \$0.0485 per KWH

CUSTOMER CHARGE: None

D. Delivery Point. The above rates are based upon the supply of service to the entire premises through a single delivery and metering point and at one voltage and phase. Separate supply for the same customer at other voltage or phase or at other points of consumption will be separately metered and billed.

**Section 8. Section 9.91.200, as last amended by Ordinance No. 4503, is hereby amended to read as follows:**

## 9.91.200

### Gas Utility Rate Schedules

Effective Date: 1/1/0810

#### Residential G-100

- A. Availability. This rate schedule is available within the service area of the gas utility to single family dwellings and multiple family dwellings through a separate meter for each living unit. This rate schedule is not available for gas resale purposes, or where any part of the use is for purposes other than above stated.
- B. Character of Service. Service shall be through a single meter at a single point of delivery. Multiple meters used for delivery to the same customer shall not be combined for billing purposes.
- C. Rate. The rate shall be composed of a consumption charge plus a daily customer charge computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE:	All ccf at <u>\$.36544483</u> per ccf plus the Purchased Gas Cost Adjustment
CUSTOMER CHARGE:	<u>\$.44285434</u> per day

#### Low Income Senior Citizen/Low Income Disabled Citizen G-130

- A. Availability. This rate is available for residential service to individuals who meet the definition of Low Income Senior Citizen or Low Income Disabled Citizen and, who don't reside in Federally subsidized housing.
- B. Character of Service. Service shall be through a single meter at a single point of delivery. Multiple meters used for delivery to the same customer shall not be combined for billing purposes.
- C. Rate. The rate shall be composed of a consumption charge plus a daily customer charge computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE:	All ccf at <u>\$.32894111</u> per ccf plus the Purchased Gas Cost Adjustment
CUSTOMER CHARGE:	None

### **Commercial & Industrial G-200**

A. Availability. This rate schedule is available to commercial, small volume industrial and municipal customers for all purposes except for resale. Commercial and small industrial users shall either possess a current City business license or present proof of engaging in commercial or industrial activity.

B. Character of Service. Service shall be through a single meter at a single point of delivery. Multiple meters used for delivery to the same customer shall not be combined for billing purposes.

C. Rate. The rate shall be composed of a consumption charge plus a daily customer charge based on meter size and computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE:	All ccf at <u>\$.28622914</u> per ccf plus the Purchased Gas Cost Adjustment.
CUSTOMER CHARGE:	275 cu.ft. and less <u>\$.33963458</u> per day
	415/425 cu.ft. <u>\$.67926914</u> per day
	750/800 cu.ft. <u>\$1.35853820</u> per day
	1000 cu.ft. and higher <u>\$2.71697658</u> per day

### **Interruptible Industrial G-220**

A. Availability. Service of natural gas by the City is available to industrial customers whose requirements are estimated to exceed 100,000 therms per year and who have adequate standby facilities which are alternately fueled to accept curtailment of their natural gas supply under this schedule. The City will provide natural gas under this schedule provided that:

Adequate gas volumes for such service are available;

Adequate capacity exists in the City's distribution system; and

The customer has executed a long term Interruptible Natural Gas Service Agreement with the City for service under this schedule.

B. Character of Service. This service applies to customers who would otherwise use propane and who have installed standby capacity to use propane in equipment listed in their service agreement. All service rendered under this rate is to be supplied at one point of delivery and single metered and billed.

Service rendered under this schedule shall be subject to curtailment by the City when in the City Manager's or his designee's sole judgment such curtailment is necessary or such interruption or curtailment has been requested of the City by its supplier(s). Service under this schedule shall have a lower priority than service under any other gas utility rate schedule offered by the City including schedule G-300. The City shall not be liable in damages for or on account of any curtailment of service.

C. Rate. The rates under this rate schedule will be covered by individual contract between the City and the customer.

D. Restrictions. In no event shall the City sell natural gas to the customer at a price less than the City's wholesale price plus any taxes based on gross revenues.

### **Institutional Service G-300**

A Availability. This rate schedule is available to institutional natural gas customers whose requirements are estimated to exceed 900,000 therms per year and who have adequate standby facilities to accept curtailment of their natural gas supply under this schedule. The City will provide natural gas under this schedule provided that the customer has executed a long term Natural Gas Service Agreement with the City for service under this schedule.

B. Character of Service. Service shall be through a single meter at a single point of delivery. Service is subject to interruption or curtailment at such times when, in the Energy Service Director's judgment, such interruption or curtailment is necessary to preserve the integrity of the City's system or the City has been requested to interrupt or curtail load by its supplier(s). The Energy Services Director shall consult with the City Manager prior to any interruption or curtailment if circumstances allow. The City shall not be liable for damages for, or on account of, any curtailment of service. The customer may also choose to interrupt or curtail service as provided for in the Service Agreement.

C. Rate. The rates under this rate schedule will be covered by individual contract between the City and the customer.

**City Vehicles ~~G-420~~**

~~A. Availability. This rate schedule is available to the City for use at all municipal compressed natural gas dispensing stations.~~

~~B. Character of Service. Service shall be through a single meter at a single point of delivery.~~

~~C. Rate. The rate shall be composed of a consumption charge plus a daily customer charge computed as follows for each meter servicing the premises:~~

~~CONSUMPTION CHARGE: All ccf at \$.22 per ccf plus the Purchased Gas Cost Adjustment.~~

~~CUSTOMER CHARGE: \$1.2756 per day~~

**Municipal ~~E-500~~ G-400**

A. Availability. This rate schedule is available to the City for use at all municipal buildings.

B. Character of Service. Service shall be through a single meter at a single point of delivery.

C. Rate. The rate shall be composed of a consumption charge plus a daily customer charge computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE: All ccf at ~~\$.2754~~2826 per ccf plus the Purchased Gas Cost Adjustment.

CUSTOMER CHARGE:

275 cu.ft. and less	<del>\$.3268</del> <u>3352</u> per day
415/425 cu.ft.	<del>\$.6539</del> <u>6710</u> per day
750/800 cu.ft.	<del>\$1.3075</del> <u>3410</u> per day
1000 cu.ft. and higher	<del>\$2.6150</del> <u>6830</u> per day

**Non-Profit Agency Serving the Disadvantaged G-700**

A. Availability. This rate schedule is available to non-profit agencies serving the disadvantaged.

B. Character of Service. Service shall be through a single meter at a single point of delivery. Multiple meters used for delivery to the same customer shall not be combined for billing purposes.

C. Rate. The rate shall be composed of a consumption charge computed as follows for each meter servicing the premises:

CONSUMPTION CHARGE: All ccf at \$.2622 per ccf plus the Purchased Gas Cost Adjustment.

CUSTOMER CHARGE: None

Section 9. Section 9.91.300, as last amended by Ordinance No. 4503, is hereby amended to read as follows:

## 9.91.300

### Sewer Utility Rate Schedules

Effective Date: 1/1/0810

#### Residential Single-Family S-11

- A. Availability. This rate schedule is available to single-family dwellings having a single water service meter and churches.
- B. Character of Service. Service shall be non-metered and at a single point of receipt.
- C. ~~The rate for the S-11 rate class is listed in section 9.92.300.~~

#### Residential Multi-Family S-12

- A. Availability. This rate schedule is available to houses and other multiple-unit residential structures, including manufactured home parks. The residence units referred to in this schedule shall be those dwelling units contained in a single structure as the dwelling units are defined in the zoning ordinance.
- B. Character of Service. Service shall be charged to and collected from each residential unit or property user, having a city sewer connection for his or its property.
- C. ~~The rate for the S-12 rate class is listed in section 9.92.300.~~

#### Low Income Senior Citizen/Low Income Disabled Citizen S-13

- A. Availability. This rate schedule is available for residential service to individuals who meet the definition of Low Income Senior Citizen or Low Income Disabled Citizen and, who don't reside in federally subsidized housing.
- B. Character of Service. Service shall be non-metered and at a single point of receipt.
- C. ~~The rate for the S-13 rate class is listed in section 9.92.300.~~

#### Commercial, Industrial and General Service S-21

- A. Availability. This rate schedule is available to single and multiple services for commercial, industrial, residential units combined with commercial and/or industrial, schools,

motels, hotels, trailer parks, social and fraternal facilities, governmental facilities, and other services not qualifying under other rate schedules.

B. Character of Service. Service shall be based on water usage through water or other approved meter to determine volume of sewage to be treated.

C. Rate. The rate shall be composed of a monthly volume charge and a daily customer charge as listed in ~~section 9.92.300~~.

D. Surcharges. The surcharges ~~listed in section 9.92.300~~ shall apply when effluent strength differs substantially from domestic wastes as determined by the Public Works Director.

### **Central Washington University S-22**

A. Availability. This rate schedule is available to all Central Washington University facilities with the exception of single-family dwellings owned, leased or rented by the university.

B. Character of Service. Service shall be based on water usage through water or other approved meter to determine volume of sewage to be treated.

C. Rate. The rate shall be composed of a monthly volume charge and a daily customer charge computed as ~~listed in section 9.92.300~~.

D. Surcharges. The surcharges ~~listed in section 9.92.300~~ shall apply when effluent strength differs substantially from domestic wastes as determined by the Public Works Director.

### **Multiple-Family S-23**

A. Availability. This rate schedule is available on an optional basis to single-family residences, apartment houses and other multiple-unit residential structures, including manufactured home parks.

B. Character of Service. Service shall be based on water usage through water or other approved meter to determine volume of sewage to be treated.

C. Rate. The rate shall be composed of a monthly volume charge and a daily customer charge as ~~listed in section 9.92.300~~.

D. Surcharges. The surcharges ~~listed in section 9.92.300~~ shall apply when effluent strength differs substantially from domestic wastes as determined by the Public Works Director.

**Municipal S-40**

- A. Availability. This rate schedule is available to City owned buildings.
- B. Character of Service. Service shall be based on water usage through water or other approved meter to determine volume of sewage to be treated.
- C. Rate. The rate shall be composed of a monthly volume charge and a daily customer charge as listed in section 9.92.300.

**High-Strength Commercial S-33**

- A. Availability. This rate schedule is available, subject to City Council approval, to commercial businesses with strengths differing substantially from typical commercial customers.
- B. Character of Service. Service shall be based on water usage through water or other approved meter to determine volume of sewage to be treated.
- C. Rate. The rates available under this schedule shall be established by contract between the City and the customer.

**Non-Profit Agency Serving the Disadvantaged S-70**

- A. Availability. This rate schedule is available to non-profit agencies serving the disadvantaged.
- B. Character of Service. Service shall be based on water usage through water or other approved meter to determine volume of sewage to be treated.
- C. Rate. The rate shall be composed of a monthly customer charge.

**Large Customer/Contractual S-80**

- A. Availability. This rate schedule is available to new sewer customers whose sewer service is provided by contract authorized by the City Council. The City will provide sewer service under this schedule, provided that:
  - 1. Adequate capacity exists in the City's wastewater collection system; and
  - 2. Adequate capacity exists in the City's Wastewater Treatment Plant; and

3. The customer has executed a Sewer Sales Agreement with the City for services under this schedule.

B. Character of Service. Service shall be based on water usage through water or other approved meter to determine volume of sewage to be treated.

C. Rate. The rates available under this schedule shall be established by contract between the City and the customer.

Section 10. Section 9.91.400, as last amended by Ordinance No. 4503, is hereby amended to read as follows:

## **9.91.400**

### **Water Utility Rate Schedules**

**Effective Date: 1/1/0810**

#### **Residential W-110**

- A. Availability. This rate schedule is available to single family dwellings; residential seasonal sprinkling service; and churches.
- B. Character of Service. Service shall be through metered delivery.
- C. Rate. The rate shall be composed of a monthly consumption charge plus a daily customer charge based on meter size ~~as listed in section 9.92.400.~~

#### **Irrigation W-111**

- A. Availability. This rate schedule is available to irrigation systems served by a water meter dedicated to irrigation service.
- B. Character of Service. Service shall be through metered delivery.
- C. Rate. The rate shall be composed of a monthly consumption charge plus a daily customer charged based on meter size ~~as listed in section 9.92.400.~~

#### **Residential Multiple Housing W-120**

- A. Availability. This rate schedule is available to buildings, grounds, and premises used for residential multiple housing purposes.
- B. Character of Service. Service shall be through metered delivery.
- C. Rate. The rate shall be composed of a monthly consumption charge plus a daily customer charge based on meter size ~~as listed in section 9.92.400.~~

### **Low Income Senior Citizen/Low Income Disabled Citizen W-130**

- A. Availability. This rate is available for residential service to individuals who meet the definition of Low Income Senior Citizen or Low Income Disabled Citizen and, who don't reside in federally subsidized housing.
- B. Character of Service. Service shall be through a single 5/8" - 3/4" meter at a single point of delivery.
- C. Rate. The rate shall be composed of a monthly consumption charge plus a daily customer charge as listed in section 9.92.400.

### **Commercial/Industrial W-200**

- A. Availability. This rate schedule is available to commercial users; industrial users; and other customers who do not qualify under other rate schedules.
- B. Character of Service. Service shall be through a metered delivery.
- C. Rate. The rate shall be composed of a monthly consumption charge plus a daily customer charge based on meter size as listed in section 9.92.400.

### **Private Fire Protection W-300**

- A. Availability. This rate schedule is available inside the city to any water user connected to the municipal water system for the use of fire protection only.
- B. Character of Service. Service shall be through a non-metered connection and shall be separately piped within the premises for the purpose of fire protection only, and shall require installation of a detector device.
- C. Rate. The ~~annual~~ daily rate shall be ~~as listed in section 9.92.400~~ based on the diameter of pipe connecting the fire protection to the City main.
- D. ~~Minimum bill. The minimum bill per month shall be one twelfth of the above rate or one sixth in the case of bimonthly billing.~~

### **Central Washington University W-600**

- A. Availability. This rate schedule is available to buildings, grounds and premises operated by Central Washington University.

B. Character of Service. Service shall be through a metered delivery.

C. Rate. The rate shall be composed of a monthly consumption charge plus a daily customer charge based on meter size ~~as listed in section 9.92.400.~~

#### **Meter Maintenance Service W-610**

A. Availability. This rate schedule is established for those water meters of Central Washington University which are used to measure the water which is the basis for determination of the sewer charge and not for water consumption billing.

B. Character of Service. The charges are for the purpose of covering the expense of maintenance to the meters and additional labor and expense in meter reading and billing.

C. Rate. The rate shall be composed of a daily customer charge based on meter size ~~as listed in section 9.92.400.~~

#### **Non-Profit Agency Serving the Disadvantaged W-700**

A. Availability. This rate schedule is available to non-profit agencies serving the disadvantaged.

B. Character of Service. Service shall be through a metered delivery.

C. Rate. The rate shall be composed of a monthly consumption charge plus a daily customer charge based on meter size.

#### **Municipal W-710**

A. Availability. This rate schedule is available to buildings, grounds and premises operated by the City.

B. Character of Service. Service shall be through a metered delivery.

C. Rate. The rate shall be composed of a monthly consumption charge plus a daily customer charge based on meter size ~~as listed in section 9.92.400.~~

#### **New Large Commercial/Industrial Contract W-800**

A. Availability. This rate is available to customers whose services are provided by contract authorized by the City Council. The City will provide water service under this schedule, provided that:

1. Adequate capacity exists in the City's water distribution system,
2. Adequate capacity exists in the City's water supply system, and
3. The customer has executed a Water Sales Agreement with the City for service under this schedule.

B. Rate. The rates under this schedule will be covered by individual contract between the City and the customer.

C. Billing. Billing shall be made on a calendar month basis or as otherwise covered by the Agreement.

### Water Rate (Consumption)

Rate Class	Rate & Effective Date				Consumption Unit
	1/1/2010 (\$/1000gal)	1/1/2011 (\$/1000gal)	1/1/2012 (\$/1000gal)	1/1/2013 (\$/1000gal)
