COMMUNITY DEVELOPMENT

The Critical Area Information Form is used to identify whether a proposed project involves any Critical Areas as defined in ECC 15.130. If it is determined that the proposed project does involve a Critical Area, then additional Critical Area review will be required pursuant to ECC 15.610. A complete Critical Area Information Form must be submitted along with the complete permit application. Staff will then review the form, perform a site inspection, and render a decision as to whether any Critical Areas may be affected by the proposal and if a more detailed Critical Area Report shall be required.

The Planning Division will be unable to accept your Critical Area Information Form if you fail to provide ALL of the following required material.

OFFICIAL USE ONLY:

| | |
|---------------------------|--------------------|
| Staff Person: | KB |
