### **15.220.010 Pre-application meeting.**

A pre-application meeting is required prior to submitting an application for any Type III or IV permit, major design review project (Type II review) permit, and for an application for a permit located within a critical area or its buffer, pursuant to ECC Article 6.

Applicants for other permits are encouraged to request a pre-application meeting with the city. Pre-application meetings with staff provide an opportunity to discuss the proposal in general terms, identify the applicable city requirements and the permit review process including the permits required by the action, timing of the permits and the approval process.

The director shall specify submittal requirements for pre-application meetings, which shall include a critical areas information form if critical areas are involved with the project. Plans presented at the pre-application meeting are non-binding and do not “vest” an application or a proposed project unless such plans have been submitted as part of a project permit application that previously has been deemed complete by the city. A summary of a pre-application meeting, including any documentation provided to the city by the applicant or to the applicant by the city, shall be made and included in the project file following the meeting.
