

## CITY OF ELLensburg SNOW PLOWING

---

Winter road care in Ellensburg starts when

- Snow accumulation reaches four inches and it is still snowing with additional snow or extended cold in the forecast; or
- When roads are icy or snow accumulation has reached one inch, and it is still snowing, we begin sanding and salting of arterial streets and hills.

The city is divided into six plowing sections, and there are three priority levels that guide crew's work. First priority goes to primary arterials and streets which buses use to reach public schools. Second priority is secondary arterials and the downtown core area. All remaining streets are third priority. Under normal snowfall conditions, all roads within the city are plowed using the aforementioned priority basis.

How you can help winter road crews

- Park vehicles in driveways or parking areas off the main streets
- If you don't have a regular off street parking area, consider moving your car when there is 4 inches of snow, and it continues to snow
- Maintain snow removal of your sidewalks, and driveways. People who push snow from a parking lot onto public rights-of-way may be fined \$250 plus the cost of snow removal

To receive notification of snow removal, sign up for snow removal emails or text messages by visiting the city's website at <https://ci.ellensburg.wa.us> and click on SUBSCRIBE at the top of the page.
